HIGHLIGHTS OF THE 2003-2004 WATERFOWL SEASON

1 You must obtain a Migratory Game Bird Harvest Information Program (HIP) registration number to hunt migratory game birds (waterfowl, coot, snipe, Mourning Dove, Band-tailed Pigeon and Sandhill Crane). A license must be purchased before obtaining a HIP registration number. Hunters will be required to carry proof of their HIP registration number while hunting these species. The phone number to obtain a HIP number is 1-877-UTAH-744 or 1-877-882-4744. Or obtain a HIP number online at wildlife.utah.gov/waterfowl/.

2 On October 4, shooting hours will begin at 8:00 a.m. in Salt Lake, Davis, Weber, Box Elder and Cache counties. Shooting hours outside of these counties will begin at one-half hour before official sunrise. Note also, shooting times for pheasant and quail opener Nov. 1.

3 The Pintail and Canvasback season is Oct. 4 – Dec. 2.

4 Hunters who fail to comply with Section IV.F. Return of Swan Harvest and Hunt Information (see page 8) will not be eligible to obtain a Swan permit in the following year.

5 Swan orientation course: A person who is successful in drawing a swan permit will be required to pass a one-time orientation course which will explain the requirements for Swan harvest tagging and the importance of returning harvest questionnaires. The course will be offered online at wildlife.utah.gov. Everyone who draws a swan permit is required to pass the one-time course before obtaining the permit. Hunters who fail to comply with Section IV.F. will not be able to obtain a Swan permit until they retake and pass the course.

6 Swan permit draw results will be posted by Sept. 10. Remaining permits will be

sold by mail-in application only, beginning Oct. 1.

7 Hunter Education. If an applicant for a resident or nonresident hunting license has completed a hunter education course and is applying for a hunting permit or license through the Division's drawings, Internet site, or other electronic means authorized by the Division, the applicant's hunter education number and the name of the state, province, or country that issued the number may constitute proof of completion of a hunter education course. The Division may research the hunter education number to verify that the applicant has completed a division-approved hunter education course.

8 Special Youth Hunting Day is Sept. 27. Shooting hours begin at 8:00 a.m.

9 Hunting Blinds: The construction and use of hunting blinds are regulated. See Section XII.E. for details. (Page 11.)

10 PRIVATE LANDS: While taking wildlife or engaging in wildlife related activities, a person may not, without the written permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted. "**Cultivated land**" means land which is readily identifiable as: 1) land whose soil is loosened or broken up for the raising of crops; 2) land used for the raising of crops; or 3) pasturage which is artificially irrigated. The DWR cannot guarantee access to any private land. If you plan to hunt in an area that is made up of all or mostly private lands you must also obtain WRITTEN permission from the landowner or an authorized representative of the landowner.

ATTENTION ALL MIGRATORY GAME BIRD HUNTERS

In the fall of 1998, Utah implemented a new, federally mandated program to improve knowledge about the harvest of migratory game birds, including Mourning Doves, Band-tailed Pigeons, swans, Sandhill Cranes, geese, ducks, coots and snipe.

The Utah Division of Wildlife Resources (UDWR) cooperates with the U.S. Fish and Wildlife Service (USFWS) in implementing the Migratory Game Bird Harvest Information Program (HIP).

The purpose of this program is to improve management of the nation's migratory game bird populations by collecting better information on hunter participation and harvest.

Anyone hunting Mourning Doves, Band-tailed Pigeons, Sandhill Cranes, swans, geese, ducks, coots or snipe will be required to register in the HIP program. There is no charge to register.

To do so, all migratory game bird hunters must call 1-877-UTAH-744 (1-877-882-4744) or register online www.uthip.com or www.uthip.org and provide their hunting license number and license type, phone number, name, address, date of birth and the approximate number of migratory game birds they harvested the previous year.

Hunters will then be given a HIP registration number they must write on their license in the space provided.

Lifetime license holders will be provided a sticker to attach to the back of their license card for entry of the current season's HIP number.

While afield, migratory game bird hunters will be required to prove that they have registered in the HIP program by presenting their hunting license with their HIP number written on it.

Some hunters will receive a follow-up diary in the mail to keep track of their effort and harvest during the year and be asked to

return it after the season to the U.S. Fish and Wildlife Service. This information will be used to estimate hunter activity and success. Improved harvest information will allow UDWR and the USFWS to make better management decisions.

The HIP registration number is much like a duck stamp, in that it is valid for the entire 2003-2004 waterfowl hunting season even though you need a new hunting license each January.

For example, if you are hunting ducks in January 2004 you will need a new 2004 hunting license, but your HIP number from the fall of 2003 is still valid.

The Division advises waterfowl hunters to write their HIP number from the previous fall on their new license in the space provided. Hunters must register again in the fall of 2004 for the 2004-2005 season and write their new HIP registration number on their 2004 license in the second space provided.

Poaching is a crime

Simply defined "poaching" is any illegal taking of fish, game or nongame wildlife. It is not a crime committed against the Division of Wildlife Resources, but a crime affecting all citizens of the State of Utah. Poachers steal from consumptive and nonconsumptive users alike. Present and future generations of law abiding outdoorsmen are the victims. Poachers erode public support of hunting and fishing. They threaten the existence of our sport. In short, poaching is a serious crime, and poachers are nothing more than thieves.

Take a stand

Defend wildlife and the right of future generations to enjoy it.

2003 Junior Duck Stamp Contest winner

This picture of a ring-necked duck, created by 18-year-old Tim Soffe of Alta High School, won 2003 Best of Show for Utah's Junior Duck Stamp Contest. This yearly competition takes place in every state and U.S. territory, with each of those 52 Best of Show winners moving on to the National Junior Duck Stamp competition in Washington, D.C. to compete against each other for \$4,000 cash prize and a trip to Washington, D.C.

Tim is a two-time winner of the Junior Duck Stamp contest in Utah, with his depiction of a hooded merganser winning in 2002. His ring-necked duck, entitled 'Jacob' was created using prismacolor pencils and watercolors. Tim is a 2003 graduate of Alta High School, and his art teacher was Doug Allen

Responsible OHV use

The Utah Division of Wildlife Resources encourages responsible OHV use. While most OHV users are responsible, irresponsible use results in disturbance to wildlife, damage to wildlife habitat, and personal injury.

Please be aware that unlawful OHV use is a criminal offense. Utah Division of Wildlife Resources' Conservation Officers and State Parks & Recreation's Rangers regularly enforce all OHV regulations, including:

-  riding an OHV in closed or restricted areas and roadways;
-  harassment of wildlife;
-  helmet-law regulations; and
-  OHV operator age restriction regulations.

Many designated roads and trails on public lands are available to responsible OHV users. You may obtain a copy of a "Travel Opportunity Guide" from the appropriate federal land management agencies (USDA Forest Service or Bureau of Land Management). Please refer to the "Travel Opportunity Guide" for locations where you can ride. Under Utah state law, all public lands are closed to OHV use unless designated open by map, sign, or description. The closures are to protect sensitive natural resources, such as watersheds and valued wildlife habitats.

The Utah Division of Wildlife Resources owns and manages several hundred thousand acres of Wildlife Management Areas across the state for wildlife purposes. Controlled OHV use on these lands protects wildlife and their habitats.

Utah law also requires youth, ages 8 to 16, to receive OHV certification before operating an OHV on open public-land roads and trails. Certification classes teach safety and instill ethics in young OHV users. Remember, to be a responsible rider also means receiving proper education.

Please call

1-800-OHV-RIDE

to enroll in the OHV safety certification classes.

Protect your privilege, stay on design roads and trails. Have fun by taking time out to hunt, fish, photograph or watch wildlife.

Be a responsible OHV user so you can help ensure a wildlife heritage for future generations.

EQUAL OPPORTUNITY EMPLOYER

The Utah Division of Wildlife Resources receives Federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the Civil rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability or sex (in educational programs). If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to: The U.S. Fish and Wildlife Service, Office for Diversity and Civil Rights Programs-External Programs, 4040 North Fairfax Drive, Suite 130, Arlington, VA 22203.

License Suspension

The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to, a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

WMAs

THE DIVISION OF WILDLIFE RESOURCES MANAGES AND MAINTAINS NUMEROUS WILDLIFE AND WATERFOWL MANAGEMENT AREAS THROUGHOUT THE STATE. THESE AREAS ARE CLOSED DURING CERTAIN TIMES OF THE YEAR TO PROTECT WILDLIFE. BEFORE VISITING A WMA, PLEASE CALL THE REGIONAL WILDLIFE RESOURCES OFFICE IN YOUR AREA FOR CLOSURE DATES.

UDWR Revenue

The Division of Wildlife Resources is funded by the sale of hunting and fishing licenses and through federal aid made possible through an excise tax on the sale of firearms and other hunting and fishing-related equipment.

ATTENTION

MIGRATORY GAME BIRD HUNTERS:

RETRIEVAL OF WATERFOWL

When hunting waterfowl, hunters are encouraged to have a means to retrieve waterfowl. Some locations require more extensive retrieval methods such as a dog, boat, chest waders, etc.

Please hunt where you are capable of retrieving your waterfowl.

Get Involved With Utah Wildlife

To provide the public a way to give input to the Division of Wildlife Resources and the Utah Wildlife Board about wildlife management in Utah, Regional Advisory Councils were established throughout the state in the mid 1990s.

There are five RACs in Utah. Each consists of 12 to 15 members selected from the specific community or region. Each RAC has the following:

- two members who represent agriculture
- two members who represent sportsmen
- two members who represent non-consumptive use
- one member who represents business interests
- one member who is a locally appointed public official
- one member from the USDA Forest Service
- one member from the Bureau of Land Management
- two members of the public-at-large, who represent the general interests of the region
- where applicable, one member who represents Native American interests

Members are appointed by the executive director of the Department of Natural Resources, in consultation with the director of the Division of Wildlife Resources. Members may serve up to two, two-year terms. Each Division regional supervisor serves as the executive secretary for the RAC in his region, just as the Division director serves as the executive secretary for the Wildlife Board.

RACs hold meetings to hear public input about Division of Wildlife Resources proposals, including recommendations, biological data and information about the effects of wildlife. The RACs also gather information from their constituents, the public and government agencies, and make recommendations to the Wildlife Board in an advisory capacity.

Each RAC is charged with hearing different viewpoints and controversial issues. They must incorporate all

perspectives and come to the decision that they feel is best for all of Utah's wildlife and citizens.

Each RAC appoints a chairperson who attends Wildlife Board meetings and presents RAC recommendations to the Wildlife Board during an open public meeting.

The public is invited to give its input and comments to the RACs. After deliberating on the issues, RAC members vote. Motions that pass are taken to the Wildlife Board.

The Wildlife Board has the final decision making authority. Board members weigh heavily on RAC recommendations when making their final decisions.

From year to year, many of the same topics are addressed during the same month. The timeline is determined by when a specific proclamation needs to be available to the public. If you want to address a specific topic (for example, fishing regulations are discussed during the August RAC meetings) you need to attend the appropriate RAC meeting.

These dates are not set in stone but are adhered to as much as possible. If you plan to attend a RAC meeting, please contact the specific Division regional office to confirm the dates.

- RAC meetings in the Northeastern Region are held at the Vernal City Offices, 447 E. Main St. in Vernal.
- The Southeastern Region, meetings are held at the John Wesley Powell Museum, 885 E. Main St. in Green River.
- The Northern, Central and Southern regions meetings are held in a different location each month.

For information on where the meetings will be held, call the Division regional office in those regions or check the Division's Web site:

www.wildlife.utah.gov (Public Meetings)

Public input is the cornerstone to successful decision-making for the Division through the RAC and Board process.

New book:

Access to Wildlife Lands in Utah

The Utah Division of Wildlife Resources has long recognized the important role habitat plays in maintaining diverse fish and wildlife resources. Toward that end, more than 90 Wildlife Management Areas (WMAs) have been established around the state. Virtually all of these lands are open for some type of wildlife-oriented public use.

One hundred eight WMAs and significant units within those WMAs are included in this book. The book also lists state fish hatcheries and fishing access locations.

The maps in this book were created by adding DWR land ownership information to available land status and topographic base maps. We use land status base maps so users can see adjacent land ownership patterns.

Lakes of the High Uintas

The Uinta Mountains of Northeastern Utah are the highest mountain range in Utah and are the only major range in the contiguous U.S. that lie in a east/west direction. Four of Utah's major river drainages originate in the snow-capped peaks of the High Uintas.

Of the 1,036 lakes surveyed, only 427 are currently being stocked with fish. About 150 lakes have sufficient natural reproduction so as to not require stocking, but, 460 lakes are fishless. Only the descriptions of the lakes which support fish are included in these booklets.
